EventBridge— Business Profile & Operations Source Document

1. Company Overview

EventBridge Party Concierge is a full-service event coordination company. It does not own physical venues — clients host events at locations of their choosing (homes, rented halls, gardens, office spaces, outdoor grounds). EventBridge's value comes from three things:

- 1. In-house rental inventory — tents, lighting rigs, sound systems, furniture, drapery, and staging equipment that EventBridge owns, delivers, and sets up itself.
- 2. A curated external vendor network — independent caterers, DJs/entertainers, decorators, and photographers that EventBridge coordinates on the client's behalf.
- 3. Planning and on-site coordination — package design, quoting, scheduling, and a staff coordinator present at larger events to manage execution.

EventBridge currently runs on shared spreadsheets, WhatsApp groups, and phone calls, which has led to equipment double-bookings, slow multi-vendor coordination, inconsistent custom quoting, and no visibility into event-day issues as they happen.

2. Actors (User Roles)

Role	Description
Customer	Browses packages, customizes an event, requests custom quotes for non-standard requests, books, pays, and tracks event status.
Admin / Owner	Manages packages, in-house inventory, the vendor network, staff/coordinators, pricing rules, and views reports.
Vendor	An external partner (caterer, DJ, decorator, photographer). Publishes their own availability, receives quote requests, submits bids, views assigned jobs, and updates job status.
Event Coordinator (Staff)	Assigned to oversee a specific event on the day it happens. Manages the setup checklist and flags real-time issues (late vendor, missing equipment, etc.).

3. In-House Inventory (Owned by EventBridge)

Inventory is the company's scarce, shared resource — it must never be allocated to two events on overlapping dates.

Category	Example Items	Typical Stock Level
Tents & Structures	20x20 tent, 40x60 tent, gazebo	8 units total across sizes
Lighting	Fairy-light rig, uplighting set, stage spotlight rig	12 rigs
Sound Systems	PA system (small), PA system (large), wireless mic sets	6 systems
Furniture	Round tables, chairs (banquet/chiavari), lounge sets	300 chairs, 40 tables, 6 lounge sets
Drapery & Staging	Backdrop drapery, stage platforms, dance floor panels	10 drapery sets, 4 stage kits

4. Vendor Network (External Partners)

Category	What They Provide	Coordination Need
Caterers	Food service — veg/non-veg/vegan menus, buffet or plated	Headcount + dietary breakdown required per booking
DJs / Entertainment	Music, MCs, live bands, performers	Time-slot confirmation + equipment needs (may use EventBridge sound system or bring their own)
Decorators	Theme design, floral arrangements, balloon/backdrop work	Often paired with EventBridge's in-house drapery/staging inventory
Photographers / Videographers	Event coverage, albums, same-day edits	Hourly-coverage based, needs exact event timeline

5. Package Tiers

Packages bundle a level of catering, decor, entertainment, and coordination support. All packages assume the client supplies their own venue/location; EventBridge delivers everything else.

5.1 Basic Package

- • Best for: Small birthday parties, intimate gatherings, simple family functions (up to ~50 guests)
- • Duration: 4-hour event window + 2-hour setup/teardown
- • Inventory included: 1 small tent OR indoor setup, basic lighting rig, standard folding chairs/tables (up to 50 guests), basic PA system
- • Vendor support: 1 caterer slot (buffet style, standard menu), no DJ/entertainment included, no dedicated photographer
- • Coordination: Delivery crew only — no dedicated on-site coordinator
- • Indicative price: Rs.40000 base + catering per head

5.2 Standard Package

- • Best for: Mid-size birthday parties, engagement parties, corporate team events, baby showers (up to ~120 guests)
- • Duration: 6-hour event window + 3-hour setup/teardown
- • Inventory included: 1 medium tent or hybrid indoor/outdoor setup, upgraded lighting (fairy-light + uplighting), banquet chairs and round tables, mid-size PA system, basic dance floor
- • Vendor support: 1 caterer slot (buffet or semi-plated, veg + non-veg menus), 1 DJ/entertainment slot (4-hour coverage), decorator support for theme styling
- • Coordination: Part-time coordinator check-in (arrival + mid-event check + wrap-up)
- • Indicative price: $60000 base + catering per head + selected add-ons

5.3 Premium Package

- • Best for: Weddings, large corporate galas, milestone celebrations (up to ~300 guests)
- • Duration: Full-day access (10+ hours) with extended setup (morning of) and late teardown
- • Inventory included: Large tent or full outdoor structure, premium lighting rig + custom uplighting, full staging + drapery package, chiavari chairs, large PA system with wireless mics, full dance floor
- • Vendor support: 1 caterer slot (plated or premium buffet, full dietary customization), 1 DJ/live band slot (full-day coverage), full decorator package, dedicated photographer/videographer
- • Coordination: Dedicated on-site event coordinator for the entire event duration, real-time issue tracking
- • Indicative price: Rs.100,000 base + catering per head + selected add-ons

5.4 Custom Package (Quote-Based)

For anything that doesn't fit the standard tiers — multi-day events, unusual themes, guest counts above 300, or specific vendor requests outside the preferred network. Routed through the Quote/Bidding Workflow.

6. Add-On Catalog

Add-on	Applies To	Notes	Fee
Extra hours (per hour)	Any tier	Extends event window; inventory reservation extends too	5000
Additional lighting rig	Any tier	Subject to inventory availability	1500
Extra catering headcount	Any tier	Adjusts caterer's guest count and dietary breakdown	Depends on menu
Live food station	Standard, Premium	Requires caterer confirmation	15000

Extra security/valet staff	Standard, Premium	Sourced from a staffing vendor category	10000
Additional photographer hours	Premium	Extends photographer's booked slot	10000
Upgraded sound system	Any tier	Swap to next tier's PA system	5000
Specialty dietary catering (vegan, allergen-free)	Any tier	Requires caterer confirmation before booking is finalized	Depends

7. Quote / Bidding Workflow (Custom Requests)

- 1. Request submitted — client describes event type, date, guest count, location, and desired vendor categories.
- 2. Routed to matching vendors — the system identifies 2–3 vendors per requested category based on availability and category match.
- 3. Vendors submit bids — each vendor responds with a price and any notes within a defined response window (e.g., 72 hours).
- 4. Customer/Admin reviews bids — side-by-side comparison of vendor bids per category.
- 5. Selection — customer (or admin on their behalf) selects a vendor per category.
- 6. Confirmed — selected vendors move into the standard booking lifecycle; unselected bids are closed.

State progression per quote request: Requested → Quoted → Selected → Confirmed (or Expired if no bids arrive in time).

8. Booking Lifecycle (Standard Packages)

- 1. Inquiry — customer selects a package, date, and location.
- 2. Availability & Compatibility Check — system checks inventory and vendor availability simultaneously.
- 3. Provisional Hold — 48-hour hold placed if resources are free.
- 4. Confirmed Booking — deposit/full amount paid within 48 hours.
- 5. In Progress — event day execution tracking.
- 6. Completed — review requests and performance logging triggered.
- 7. Cancelled — inventory and slots released back to availability.

9. Event-Day Coordinator Workflow

• Coordinator receives a day-of checklist auto-generated from the package + add-ons.

• Coordinator checks off each item as completed.

• If a vendor is late or equipment is missing, flags an issue in real time for immediate admin resolution.

• Marks event complete, triggering teardown/pickup scheduling.

10. Payments

• Deposit or full payment required to convert provisional hold into confirmed booking.

• Processed through PCI-compliant payment gateway.

• Vendors paid separately per contracted rate; tracked in admin dashboard.

• Refunds/cancellations follow defined policy.

11. Reviews & Loyalty

• Customers prompted for review/rating upon completion.

• Reviews tracked per vendor, feeding into future vendor matching.

• Repeat customers (2+ completed bookings) become eligible for loyalty pricing.

12. Reporting Needs (Admin Dashboard)

• Revenue by package tier, by month/quarter

• Inventory utilization rate

• Vendor performance metrics

• Quote-to-booking conversion rate

• Repeat customer rate and loyalty discount usage

13. Sample End-to-End Scenario

1. Customer selects Premium Package for a 150-guest wedding reception.

2. System checks inventory and vendor availability; 48-hour provisional hold placed.

3. Customer selects caterer, specifies 100 veg / 50 non-veg, and adds a live food station.

4. Customer pays 30% deposit; booking confirmed and vendors notified.

5. Automated reminders sent prior to event.

6. Coordinator manages day-of execution, flags minor DJ delay, and marks event completed.

7. Review requests sent; inventory scheduled for pickup.
